Sir:

In response to the Office Action dated September 11, 2002,
please amend the above-identified application as follows:

In the Claims:

Please amend Claim 4 to read as follows:

B1
4. (Twice Amended) A device for forming a vessel body
which comprises an open top negative mold, a ring-shaped lid member
for the negative mold with an inside diameter which is smaller than
an open top diameter of the negative mold, a rotary trowel, having
cylindrically shaped working surfaces, which is mechanically fixed
to move against an inner surface of the negative mold within a
predetermined range and is at least longer than a height of an
